## RIVER AND STEAMBOAT MATTERS.

### PORTLAND TELEGRAPH LINE.

Office at Portland, Maine, on the wharf.  
Office at Shippen, in the Canal Office.  
Office at Louisville, Durrett's Clothing Store, corner Fourth and Water streets.

The river was still rising last evening with about 8 feet water on the falls. All the boats that now arrive pass the falls. The weather yesterday afternoon was beautiful.

The Cumberland was rising on Monday evening with 7 feet water on the shoals.

The R. J. Ward for New Orleans.—This magnificent steamer leaves for New Orleans this evening. The Ward's accommodations and her fare are unequalled. She has established such a reputation that all the rooms have already been secured for her next trip up from New Orleans. Capt. Miller, her commander, and Messrs. Smith and Grey, who are the clerks, are gentlemen who bestow every attention to passengers.

The fleet steamer Rainbow is at the city wharf and will leave for New Orleans on Saturday. She has been newly painted and renovated, and is in fine condition.

The Gen. Pike will leave for St. Louis and St. Paul this morning.

The Statesman, Capt. Sullivan, will leave for Henderson this evening.

The D. A. Given is the regular packet for Nashville this evening. We are glad to see that she is well patronized. She was receiving considerable freight yesterday, among it a large portion of agricultural implements.

The Dove did not come down yesterday, but she will be here to-day, and will start for the Kentucky river this evening.

The Emma Dean is the Carrollton packet, and the Telegraph is the mailboat for Cincinnati.

The splendid steamer Northern will be up this evening and leave for Memphis to-morrow.

We are indebted to the attentive officers of the Alvin Adams and Emma Dean for copies of their manifest.

We copy the following items from our St. Louis exchanges:

Gave up her Trip.—The steamer Michigan, which was receiving for the Missouri river and would have left last evening, was obliged to give up her trip for want of a pilot. Pilots for the Missouri river are in great demand. The Michigan was paying her \$1,000 per month. Another boat wanted pilots, and was willing to give \$2,400 for two months' service. The liberal offer got the pilot, and the Michigan re-shipped her freight and passengers on the Oceana, in consequence. The Michigan will be still for awhile, and will probably go South, when there are better prospects for business than at present.

To be Torn Up.—The Keokuk packet Thomas Swann has made her last trip, and is to be torn up and her machinery put into a new boat, now building for the Keokuk trade. The work of demolition commenced this morning, directly after her arrival.

The wreck of the steamer Chicago was sold at Pittsburg on Saturday for the benefit of the owners and underwriters for \$2,100.

Boat Building at Mobile.—A late Mobile Advertiser says:

Messrs. J. M. & T. Meaher have lately launched a fine light draught boat for the summer trade, the Chief Justice Taney. The hull was built by Mr. C. B. Butler, cabin by E. P. Chappell, and the iron work, engines, &c., by R. S. Kirk & Co. She has all the modern improvements with such additions as the experience of her proprietors might suggest. The dimensions are as follows: 224 feet over all; 27 feet floor, 25 feet beam, 4½ feet hold, and draws as she now stands (with her engines, shafts, and cabin nearly completed) 18 inches aft and 5 inches forward. She has capacity for 1,800 bales of cotton and berths for 185 passengers. She has two engines of 8 feet stroke and 17½ inch cylinders.

This is, we believe, the sixth boat of the Messrs. Meahers' construction. We understand that the keel of a seventh will be laid shortly.

Lake Pepin Open.—The upper Mississippi through Lake Pepin was opened to navigation last Thursday. The vessel that first broke through the ice was the War Eagle, but as she neared the head of the Lake a man fell overboard, and the delay caused by the accident allowed the Galena to get ahead, which vessel reached St. Paul early on Friday morning, and of course takes the prize of \$400 offered by the St. Paul folks to the first vessel through.

The steamer Falls City, in endeavoring to force her way through the ice, sunk, after getting about three miles, on Thursday.

The gentleman who was drowned on the Julia Dean is supposed to be Mr. Townsend Rowland, of Mt. Carmel.

AMERICAN MARBLE.—The fine texture and exceeding beauty of American marble is beginning to attract the attention of European marble manufacturers. The Boston Atlas learns that the Verde Antique Marble Company, working the quarries of this beautiful ornamental marble, at Roxbury, Vermont, have recently shipped several blocks on order to France, and have within a few days received an order from one of the most prominent dealers in London for a quantity in the rough block. In both England and France it is said to be superior to the Italian veined marbles now used, and must hereafter, to a large extent, supply their places. This is said to be the first instance where marble has been exported to Europe on the order of a European manufacturer. Our marbles have been considered inferior to the Italian articles, but there are in this country many quarries of colored marble that cannot be excelled by any in the world. The black and variegated marble from the quarries of the Louisville and Arkansas Marble and Mining Company, on White river, in Arkansas, are unsurpassed in beauty and fineness of grain. The specimens that have been sawed out and manufactured and dressed for various purposes present a more polished surface and more beautiful and durable color than any other that has been worked, whether native or imported. We understand that propositions have been entertained for the sale of these quarries to an English company, which will get out the marble solely for exportation to Europe. This is a new feature in American exportations, and it promises to become a very important one to our country.

Mr. Robert Colrin, of Campbellsville, had 48 hds of tobacco sold at the Picket Warehouse during the last four days at prices ranging from \$10 to \$19 25 per hundred, averaging \$14 25. The gross proceeds of the entire lot amounts to \$9,955 44.

There were sales at St. Louis on Tuesday of 1,500 hales hemp, at prices ranging from \$125 to \$140 per ton.

## BAPTIST ANNIVERSARIES.—General Association.

The meetings of this body were protracted throughout yesterday, and continued to grow in interest. It is said that the delegation is the largest ever assembled at any State religious meeting in Kentucky. We know that it embraces a large amount of talent and dignity, in both the clerical and lay departments. Hon. E. B. Bartlett presides with much efficiency, and the discussions are characterized by great spirit.

Yesterday reports were made upon Sunday Schools, Education, Temperance, Bible Cause, &c. That upon Temperance was somewhat desultory in its character, and embraced a notice of the prevailing fashion of hoops and high-heeled shoes. The general sentiment of the members appeared to be that of non-interference in the Temperance cause.

The next annual meeting of the General Association is to be held at Georgetown in May, 1858. Last night a report upon Foreign Missions was read, and able addresses delivered by Rev. A. M. Poindexter, of Virginia, and Rev. Russel Holman, of Alabama. The Association resumes its sessions this morning at 8½ o'clock.

Educational Convention.—This morning at 11 o'clock a convention of Delegates from all the Southern States will assemble to consult concerning the advancement of the educational interests of the Baptists in the South. Its chief object will be the organization of a central theological school, upon which all the energies, resources, and talents of the denomination may be concentrated.

Rev. Dr. Basil Manly, of Charleston, S. C., for twenty years the able and learned President of the University of Alabama, will preside.

THE LEXINGTON VARIETIES.—Wood Benson. Our friends in Lexington will soon find themselves ensconced in one of the most elegant, convenient, and perfectly arranged little theaters in the Union. Their Odd Fellows Hall has been expressly fitted up for the purposes of the drama by the exertions of Mr. Hough, the lessee. But not only will they find pleasant seats and fastidious arrangements throughout, but a company of fine actors.

Mr. Wood Benson is the stage manager. A new field for the genius of the irresistibly comic man, as some may think. But such is not the case. There are few persons who have been so thoroughly trained in the profession, and none who have had greater advantages in acquiring a correct knowledge of all the intricacies connected with the stage. Mr. Benson is conversant with theatricals modern and ancient, and can put a play upon the boards in the most skillful manner. Besides, he is one of the most genial, wide-awake, and fascinating comedians to be found anywhere. Lexington will soon learn to appreciate him.

TRAVELS IN CENTRAL AFRICA.—Very gradually through the enterprise and Christian heroism of civilized Europe and America that terra incognita which lies beyond "Africa's burning sands" is being explored, and the mysteries enveloping that wonderful continent being dissipated. The latest contribution to geographical and ethnological discovery in that part of the land is from the pen of Rev. T. J. Bowen, a Missionary of the Southern Baptist Convention. He spent several years in exploring the very heart of Africa, and went into cities and countries where never before the face of a white man had been seen. This book is of rare interest. It is thrilling as a work of travels and possesses double value in the estimation of the philanthropist who would see Ethiopia stretch out her hands, and a whole continent regenerated.

Mr. Bowen's volume is published at Charleston, S. C., by the Baptist Publication Society, the Financial Secretary of which is now in the city. This gentleman, Mr. J. J. Toon, will supply all orders for the volume.

IMMERSION BY MR. BEECHER.—Pierpont Street Baptist Church, in Brooklyn, was densely crowded Wednesday evening on the occasion of the administration of baptism by immersion, in which Rev. Henry Ward Beecher officiated. The regular Wednesday evening lecture of Plymouth Church was held there, and the baptism took place immediately after the services. While the last hymn was being sung, Mr. Beecher and the candidates for immersion retired. The floor of the platform was removed, revealing beneath it a tank, entered by steps at either end, the water in which was about three and a half feet deep. When the hymn was concluded, the candidates presented themselves and were conducted into the water, one by one, and immersed by Mr. Beecher, repeating the usual formula.

EXAMINATION AT THE HIGH SCHOOL.—The pupils at the Male High School who have been pursuing classical studies under Prof. Schenck, were examined yesterday. They displayed the most thorough and critical knowledge of the Greek and Latin, not merely giving bald translations of sentences and words, but giving exhibition of their possessing a correct and critical knowledge of the language. It is evident that under Prof. S.'s tutelage these young lads will become proficient linguists, and that speedily.

The editor of the New York Herald concludes a highly laudatory notice of the British Minister's speech at the St. George's Festival as follows:

With such bases for an understanding, there is but little fear that the mission of Lord Napier will be an entirely successful one.

One might conclude that after all the editor hadn't any very great respect for the Queen's English.

A ministerial crisis in Canada has resulted in the resignation of Mr. Cauchon, Commissioner of Crown Lands. Differences between that gentleman and his colleagues, in reference to the North Shore Railway, are assigned as the cause. A personal altercation in Parliament between Mr. Cauchon and Attorney General Macdonald followed the resignation and caused a great excitement.

Wm. H. Clement has resigned the office of superintendent, Gen. P. W. Strader that of general ticket agent, and N. C. Crowling that of master of transportation on the Little Miami Railroad, and have accepted the same appointments on the Ohio and Mississippi Railroad.

The post office of Lynchburg, Todd county, Ky., has been discontinued.

There was a sale in Philadelphia of one share of stock of Bank of Kentucky at \$113.

## PARIS DEPOSIT BANK.—The following are the Directors for the ensuing year, viz: Wm. Garth, V. Higgins, Geo. W. Williams, Thos. L. Garrett, and W. H. Shackelford. At a meeting of the Board, W. H. Shackelford was re-elected President, Jas. H. Givens was continued Cashier, and W. H. Rucker, Clerk.

THE CHINA MISSION.—It is said that Mr. Reid, the newly appointed Minister to China, will not be able to depart on his mission till June. The frigate which is to convey him will not be ready till some time in that month. His main object will be to obtain a new and more liberal treaty, in the place of the treaty of Whang-hoe, which expired nearly a year ago. It is urged that the American Minister should have the right of a residence at Peking, which was once very nearly secured, according to the Washington correspondent of the New York Journal of Commerce, who says:

Our Minister, Mr. McLane, was, at one time, about to go to Peking, with the Emperor's permission. He would have been invited to go, but for the reason that it would have involved the necessity of extending the same privilege to the British representative. It was nothing but the jealousy and the hatred of the English that prevented the access of the American Minister to the Imperial presence. This fact I received from the highest authority. It is an illustration of the relative position of the two nations towards the Chinese government, and is clearly indicative of the amicable line of policy that the United States ought to pursue in any attempt to obtain commercial privileges from China.

THE PRESIDENT'S HEALTH.—The Washington correspondent of the New York Courier and Enquirer writes:

The illness of the President has excited some solicitude, but he says of himself that he is getting well. He looks pale and worn out. The Democratic papers are earnestly discussing his symptoms, and some of them bluntly express their belief that he was poisoned. When the first suggestion of so shocking a crime was thrown out, it appeared to recoil at the very thought of the Democracy which preferred Mr. Breckinridge to Mr. Buchanan.

It should, on that account, have been promptly hushed up, but is revived for some purpose of political malignity.

[From the New York Herald.]

REJECTION OF THE DALLAS-CLARENDON TREATY. Washington, April 3, A. M.—Highly important dispatches were received to-day at the State Department, brought by the African. General Cass has just received a communication from Mr. Dallas, announcing that the British Government has rejected the Dallas-Clarendon treaty. This rejection has not been accompanied, as yet, by any explanation of an extensive character, but by the next steamer it is expected that a full statement of the views of the British Government will be forwarded by Mr. Dallas.

The British Minister, Lord Napier, has also received the same intelligence. It has much astonished him, as he has been predicting, ever since his arrival here, that his Government would offer no difficulties to the ratification of the treaty.

There is a great deal of excitement at the White House and the State Department at this unexpected announcement of the rejection of the treaty by the British Government. It was communicated to the other legations without loss of time. The French Minister took the matter coolly, for he seems not to understand much about diplomatic affairs. The Russian Minister was much much delighted at this new imbroglio between the two Anglo-Saxon Governments, the union of whom in any great policy is considered to be the interests of Russia, both in the East and the West.

It is believed both by the President and General Cass, that this rejection of the Dallas-Clarendon treaty has been produced by a disposition on the part of Lord Clarendon to take satisfaction out of the American Government for the snubbings which the British Government received on the ultimatum question.

If the recent elections in England had gone against Lord Palmerston, it is probable that the British Government would have accepted the treaty without any words. After such a triumph, however, as he has had, and with a working majority of a hundred, his judgment is determined to show the Yankee Government, and is determined to show them that he will not be dictated to by the President and Senate on any question connected with Central America.

This unexpected and singular rejection of the treaty by the British Government, throws all our relations with England, on the Central American and Chinese questions, into confusion. Lord Napier finds himself in quite a new position in Washington, and all the good feeling created by the recent dinners, specifying, and the other attentions shown him, has been thrown to the winds under the new and extraordinary movement of Lord Palmerston to renege himself and take satisfaction out of the American Government for the dismissal of the former British minister and the three consuls.

WASHINGTON, May 3.—P. M.

The Dallas-Clarendon treaty does not go into effect, and for this reason: The treaty between England and Honduras relative to the Island of Ruatan has not yet been ratified by Honduras. Until this is done some of the provisions of the Dallas-Clarendon treaty cannot properly, in view of the English Government, be accepted. I have it from undoubted authority that neither the President nor Lord Napier regard this result as at all likely to interrupt the present friendly relations of the two countries.

## From the last Paris letter in the New York Commercial Advertiser we make the following extracts:

I detailed to you in a late letter the projects and recommendations of General D'Origny in regard to a commercial treaty between the United States and Birmah. I return to the subject in order to inform you that, on the recommendation of the French government and the American Minister at Paris, Gen. D'Origny contemplates sailing soon for the United States to urge this matter in person upon the Cabinet of Washington. At the same time he intends to contract for the building of two war steamers for the use of the Birmah government. This intelligence I have from the General himself, and nothing will prevent the accomplishment of his object but some untoward circumstance in the Birmah empire, within a very short period, demanding his recall.

The inauguration of the Bordeaux and Cete Railroad, which unites the Atlantic and Mediterranean Seas, offered a spectacle that has been much remarked at Paris, for it is a singular contrast with events not very remote. The Catholic clergy, in a very considerable number, attended this celebration, with a Cardinal Archbishop at their head, and standing with the two Hebrew Pereires in their midst, headed the road as a propagator of civilization and the Christian religion, and eulogized its two builders as great benefactors to their country. If we go back but a very few years we find that the Catholic Church was opposed to these industrial enterprises, as inaugurating an era of progress dangerous to the supremacy of the Church; and if we go back a little farther still, we find that it was formerly the custom in this very city of Toulouse, and on this very same day of the year, for a Catholic priest publicly to strike a Jew a violent blow on the head in one of the churches, in order to remind the race of their degraded position before the Christian world. Things have changed for the better.

I have no favorable news to give you in regard to the unfortunate failure of Green & Co. The general impression seems to be that the house will not be able to resume. In so delicate a matter I prefer not to say more. The suffering caused by this failure has been immense—perhaps I ought to say the inconvenience, for the majority of the creditors of the house were persons who could not afford more or less credit in a case of emergency like this. But yet there were a considerable number of artists and students who were stripped of every sou they owned, and what is worse, they were stripped in a land of strangers. It would be impossible not to feel and not to express the deepest sympathy for such misfortune.

The Imperial Academy of Lyons has offered a premium of nine hundred francs for the best essay on the improvements made on steam as a motive power since the days of Watt. The essays must be sent to the Academy before the first of November, 1857.

The prospects of the silk crop in France and Italy will be anxiously regarded during the next six weeks. Appearances at present are encouraging.

With respect to the European grain harvests, it is too early to form any strong anticipations. In

**A MEDITATIVE DOMESTIC WANTED.**—One of our patrons in Kalamazoo, Mich., wants a female domestic in the family who is meditative and would be willing to sit in the family circle for communion with spirits.

From all the evidences we have learned there will be serious troubles on the plains the present summer. This is the decided opinion of Mr. Goodell, who is one of the oldest, most experienced, and cool-headed mountaineers we have among us. He is a man of great intelligence, perfectly reliable, and has had an acquaintance of seventeen years with the mountains and the Indian tribes who inhabit that region.

The Chinese in Sarawak and Borneo have risen and massacred several Europeans, whose destruction was avenged by the killing of 2,000 Chinese.

WASHINGTON, May 6.

There was a difficulty to-day at Willard's Hotel between J. McLeod Murphy and Daniel E. Sickles. Murphy on Sunday addressed a note to Sickles, accusing him of assailing his private character by unjust imputations in his efforts to effect Murphy's removal as Civil Engineer at the Brooklyn Navy Yard.

Sickles replied that the note was only a vague and unmeaning menace, and, as such, he had already taken too much notice of it, Murphy not giving his author, and the particulars of the allegation.

Murphy yesterday sent Major Watkins to see Sickles, when the latter demanded the name of his informant and on whose statements Murphy backed his charge, and denied the right to be interrogated on the rumor.

Murphy considering Sickles' note insulting, sent a challenge through Watkins. In his reply Sickles said he had not used language which cast imputations on Murphy's honor, and that there was no ground on which he could demand an explanation or a hostile meeting.

Here the correspondence rests. This morning Murphy obtained admission to a chamber where Sickles was in bed, and attempted to cowhide him. A struggle ensued. Sickles obtained possession of the weapon, and dealt him a blow on the face with his hand.

A private dispatch from New Orleans dated to-day says that Collector Hatch has ordered the schooner Louis McLeod to be seized on suspicion of being a slaver.

RICHMOND, Va., May 6.

There has been a great freshet on the James river. The lower wharves, streets, and houses were submerged, and the low grounds were overflowed. Damage is apprehended to the crops on the river. No such freshet has occurred since 1847. At Lynchburg the water has risen 17 feet, but is now falling. Per civil's Island is overflowed. The tressel work on the Southside Railway has been swept away, impeding the passenger trains.

NEW YORK, May 6.

The large brick building in Brooklyn, occupied in part by Burdon's mechanical works, was entirely destroyed by fire early this morning. Loss estimated at \$80,000.

GLASGOW, Ky., May 6.

The funeral of Judge B. Mills Crenshaw took place at 4 o'clock this evening. A very large number of citizens attended the obsequies, notwithstanding the inclemency of the weather.

STATE FINANCES.—The editor of the Bankers' Magazine has issued a series of papers in that work showing the foreign commerce of each State for each year from 1820 to 1894, inclusive. This series of tables demonstrates the imports and exports, and tonnage, &c., for each fiscal year, and thus exhibits the comparative growth of each State.

A second series of papers is now commenced in the same work, of far more importance to the financial community and to the political economist. This is a tabular view of the finances of each State for each fiscal year from 1825 to 1895—showing I. The aggregate funded debt at the end of each year. II. The annual interest on such debt. III. The aggregate taxable property in the State each year. IV. The gross revenue of the State. V. Gross expenditures. To this is added, by some of the treasurers, the balance of available fund in the State Treasury at the end of each year.

This series of tables will show, more clearly than any other documents can do, the past and present financial condition of the State, and will enable persons at a distance to estimate more clearly the value of State funded debts.

We have already published a synopsis of the progress of the State of Ohio in the above particulars. Maryland exhibits a still stronger position financially.

By a wise provision at the time her large debt was contracted, a sinking fund was created, the operation of which will cancel the whole debt before its maturity. This fund is already one-third or more of the debt, and will by its own accumulating powers be equal to the principal in less than ten years.

Maryland suspended specie payment on its interest, when financial troubles prevailed also in Pennsylvania, Indiana, Illinois, &c., but Maryland resumed payment in January, 1848, when the yearly interest was \$637,000, and at the same time funded the arrears of interest up to that year. The taxable property of the State was then about one hundred and ninety millions, yielding a revenue of \$1,000,000. The property is now over two hundred and fifty millions at low assessments, and the revenue is \$1,230,000; showing that the burdens of taxation are much lighter *pro rata* than twenty years ago.

The gross disbursements of the State for the year are less than one-sixth those of the city of New York. In order to show the progress of Maryland since 1833, we extract from the official report in the Magazine the following items:

Year.	Funded Debt.	Ann'l Int.	Taxable Prop'y.

The State has disbursed, for interest alone, in the last 24 years, \$26,141,000.

DAILY REVIEW OF THE MARKET.

LOUISVILLE, May 6.

We have no change to notice in the money market. Currency is still scarce, but the demand is not as large as it has been. Eastern exchange is rather easier, but rates have thus far undergone no change, and we continue to quote it at 1/2 to 1 1/2, and New Orleans par to 1/2 1/2.

Flour and grain have a decided upward tendency, and the stocks are light. The steamer's news, received last night, quotes an advance. Last evening's sale of 500 bushels superfine was made from a mill at \$3 25 and a sale of 30 bushels white wheat flour from store at \$5 40; small lots of the latter brought \$6 50. Wheat we continue to quote at \$1 15 for red and \$1 25 for white, and very little arriving. Corn very firm; a sale of 150 bushels mixed from store at 72c, sacks included. Oats continue to sell from store at 60c.

The provision market was also firm. We note sales of 25 bushels mess pork at \$22, 125 bushels at the same, 253 bushels M. O. at \$21, and 157 bushels bacon on orders, mostly sales, at 11 1/2 for ribbed and 12 1/2 for clear sides, and 12 for Falls City hams. About 100 kegs prime lard sold on orders at 14c.

Very little was done in groceries. Sugar is firm with an upward tendency. Sales of 12 hbls at 12 1/2, 20 at 12c, and 10 at 11 1/2. Some holders were asking 12 1/2 for choice. About 20 hbls refined sold at 14 1/2. Light sales of molasses at 60c for hbls and 60 for half hbls. Sales of 20 pkgs St. Louis ground syrup at 17, 100, and 100c for hbls, half hbls, and kegs. Coffee quiet with small sales at 11 1/2 (11 1/2) for Rio and 13c for Laguayra. Sales of 8 tierces rice at 55c.

In bagging, a sale of 150 pieces at 10c and about 50 coils hand-spun rope at 8 1/2c.

Sales of 30 hbls tobacco—7 at \$7 30, 57 at \$8 10, 50 at \$8 30, 10 at \$5, and 10 at \$5 7, at \$11 (11 1/2) 50, 6 at 12 (12 1/2) 50, 5 at \$13 (13 1/2) 50, 4 at \$14 (14 1/2) 50, 6 at \$15 (15 1/2) 50, and 4 at \$16 55, \$17 40, \$18 25, and \$19 25.

Whisky continues firm at 25c for raw. Small sales of mackerel at previous rates. Sales of bar lead at 7 1/2c.

The 100 tons hay at the mouth of Salt river, which was sold a few days ago, was resold yesterday at \$25 per ton. Freight still lower—shipments to New Orleans at 50c for pork and 60c per bbl for whisky from city wharf. To Wheeling and Pittsburgh 15 and 18c.

NEW YORK, May 6, P. M.

Cotton market depressed—sales of only 750 bales owing to disappointment of the advices brought by the Europa. Flour firm with sales of 20,000 bbls. Wheat buoyant—70,000 bushels red Southern at \$1 65c. Corn firm and sales of 25,000 bushels at 80c. Pork and beef firm. Coffee dull. Lined oil quoted at 81c. Hemp closed quiet. Stocks firmer.

NEW YORK CATTLE MARKET, May 6.

Beefers have declined fully 1/2c and the market closed dull. Receipts amounted to 2,900 head. Sheep and lambs declined 1/2c per head. Swine slightly lower and sales of good prime at \$7 67 1/2.

CINCINNATI, May 6, P. M.
